OBJECTIVES

To obtain user experiences and user interaction in front-end position using ... skills. Competent in developing user-friendly applications that promote and influence health accessibility of human-computer interaction and human information. Strong-willed, passionate, and task-oriented.

EDUCATION

University of California, Irvine

June 2019

Bachelor of Science in Informatics, specialization in Human Computer Interaction

GPA: 3.092

SKILLS

Languages and Technologies: Java, Python, C++, HTML, CSS, JavaScript, jQuery, Bootstrap, Materialize, GitHub, Responsive Design

Other Knowledge: Object-Oriented Programming, Front-end/web developer, making wireframes, mockups, prototypes, problem solving, playing piano, and drawing.

Languages: English, Indonesian

PROJECTS

TriviaGame Website

Summer 2018

An Interactive website where users answers a set of trivia questions in 60 seconds.

- There will be a notification and an image shows up when the answer is correct and wrong
- At the end of the game; it will show how many questions are correct, wrong, and unanswered.
- Coded in html/CSS; jQuery and JavaScript.

Software Design

Fall 2018

Design Alexa for children/students age 5 to 10 to learn Math vocally

Parents or tutors are able to see the progress of the students/children through the app that connects with Alexa. The design involves:

- Application design: define goals and functionalities
- Interaction design: make mockups and create a sample Math worksheet where students can print it out and write down the answer while interact with Alexa
- Implementation design: create UML and flow chart diagram to connect the relationship of the system functionalities.
- Architecture design: design the pseudocode

Eyes For Lives

Fall 2018

- Create eyes blink detection using python
- The program counts

ACTIVITIES

- Participant in coding competition (OCC Algorithm Club) in September 2018
 - Solving several algorithm problems using Java
- IVC Student Ambassador Recognition Award (Office of the Vice President for Student Service: Irvine Valley College)
 - Coordinate a campus wide talent show called *We are IVC!*
 - Mentor freshman and help familiarize them with campus live.
 - Giving campus tour for freshman, high school students and families
